Journal of Marine Sciences & Environmental Technologies

JMSET

ISSN: 2413-5267

Volume 2, issue 1 (June-2016)

Editor-in-Chief

Assoc. Prof. Dr. Mustafa E. Elsharif (Alasmarya Islamic University, Libya)

Managing Editor

Assist. Prof. Dr. Aly Y. Okasha (Alasmarya Islamic University, Libya)

Editing General Supervisor

Assist. Prof. Dr. Hesham G. Ibrahim (Alasmarya Islamic University, Libya)

Associate Editors

Assoc. Prof. Dr. Mohamed A. Elsaidi (Sebha University, Libya) Assist. Prof. Dr. Mokhtar M. Shaglouf (Sirte University, Libya)

Scientific Advisory Committee

Prof. Dr. Abdulsalam M. Methnani (Sebha University, Libya)

Prof. Dr. Salahoudeen M. Gashout (Marine Biology Research Center, Libya)

Prof. Dr. Mohamed A. Al-Meshragi (Al-Mergheb University, Libya)

Prof. Dr. Hassan A. Abuarabbia (Al-Mergheb University, Libya)

Assoc. Prof. Dr. Mohamed M. Baraka (University of Tripoli, Libya)

Assoc. Prof. Dr. Nasser K. Elkabeer (Azzawyia University, Libya)

Assoc. Prof. Dr. Mohamed N. Esmeo (University of Tripoli, Libya)

Assoc. Prof. Dr. Saad K. El-Obaidi (University of Benghazi)

Journal of Marine Sciences and Environmental Technologies (JMSET) is a biannually scientific referred periodical international journal.

Published by;

Faculty of Marine Resources Alasmarya Islamic University Zliten City-Libya

ISSN: 2413-5267

Foreword

Journal of Marine Sciences and Environmental Technologies (JMSET) is a scientific refereed periodical international journal (ISSN: 2413-5267). It is issued by Faculty of Marine Resources at Alasmarya Islamic University, in accordance to the resolution of the Council of Alasmarya Islamic University (253/2015). JMSET endeavors to provide a notable and discern forum to publish research manuscripts of high quality relevant to wider area of marine science and environmental topics. JMSET is a multidisciplinary journal covering wide area subjects of marine science and environmental technologies. It promotes insight and understanding of the state of the art, and trends in environment, engineering, and marine sciences.

This volume 2 and issue 1 (June 2016) contains eight diversified scientific contributions (manuscripts) which are blindly peer reviewed by members of JMSET editorial, and reviewers panel to ensure optimum standards. We hope these papers will be helpful for imparting advanced knowledge to the researchers, academics, and technologist who are involved in research, teaching and practical fields. The issue covers a broad range of topics in the field science, engineering and techniques of environmental treatment.

We want to express our heartfelt thanks to Authors for submitting their work and also to the distinguished members of the editorial board, reviewers and the publication committee who have put their relentless effort to publish the issue successfully. We believe this issue reflects the topics focus of JMSET and provides resources to the research community. We believe our authors will be continuously supporting and relying on JMSET to publish quality research work.

Dr. Mustafa E. Elsharif

Editor-in-Chief, JMSET Dean of Faculty of Marine Resources Alasmarya Islamic University

Call for Manuscripts

Journal of Marine and Environmental Technologies is a peer-reviewed journal, published by Faculty of Marine Resources, Al-Asmarya Islamic University. The journal publishes research papers in the fields of;

Marine Science;

The journal draws from diverse topics within the major disciplines of coastal and blue water oceanography (biological, chemical, geological and physical) as well as subjects in ecology, conservation and technological developments with the marine environment as the unifying theme. Also all branches of engineering related to marine such as (offshore & marine explore, mechanical, naval architecture and corrosion,... etc.).

Environmental Technologies;

JMSET covers all sorts of researches on the field of environmental technologies (management, assessment, monitoring and treatment) of atmospheric environment, aquatic environment and municipal solid waste,...etc.

We are seeking submissions for forthcoming issues. The paper should be written in professional English. The length of 3000-8000 words is preferred. All manuscripts should be prepared in MS-word format, and submitted to managing Editor e-mail.

Paper Selection and Publication Process

- a) Upon receipt of paper submission, the editor sends an E-mail of conformation to the corresponding author within 1-3 working days. If you fail to receive this conformation, your submission/e-mail may be missed. Please contact the Editor in time for that.
- b) Peer review. We use double-blind system for peer-review, both reviews and authors' identities remain anonymous. The paper will be peer-reviewed by three experts, one is an editorial staff and the other two are external reviewers. The review process may take 2-3 weeks.
- c) Notification of the results of review by E-mail to into the authors to revise paper.
- d) After publication, the corresponding author will receive one copy of printed journal and one soft copy of journal, free of charge.

Requirements and Copyrights

Submission of an article implies that the work described has not been published previously (except in the form of an abstractor as part of a published lecture or academic thesis), that it is not under consideration for publication elsewhere, that its publication is approved by all authors and tacitly or explicitly by the responsible authorities where the work was carried out, and that, if accepted, it will not be published elsewhere in the same form, in English or in any other languages, without the written content of the Publisher. The Editors reserve the right to edit or otherwise alter all contributions, but authors will receive proofs for approval before publication.

Copyrights for articles published in JMSET journal are retained by the authors, with first publication rights granted to the journal. The journal/publisher is not responsible for subsequent uses of the work. It is the author's responsibility to bring an infringement action if so desired by the author.

Preface

Issue 2 of volume 1, includes the contributions from the following categories: (Marine Industry, Ecology, Reservoir Fluids, Air Pollution Control, Dieses of Fish, Marine Biology, Microbiology, Solar Energy Applications, and Noise Pollution).

The eight manuscripts in this JMSET Journal (Volume 2, Issue No. 1) present an indepth discussion on latest fields of Marine and Environmental Sciences & Engineering.

In first paper is the Determination of Shelf Life and Some Nutritional Components of Catfish (*Clarias lazera*) After Hot Smoking. The second paper is an Ecological Studies on The Vegetation of Sand Bar of Lake Burollos Protectorate and Effect of Salinity on Some Developing Species. Third paper is a Fluid Inclusion Microthermometry and Dating of The Quartz Cement within The Upper Nubian Sandstone Reservoir, SE Sirte Bain, Libya. The fourth paper used Nano Fibers in Dust Collection Systems. The goal of fifth paper is a Survey of Internal Protozoa Parasites of Marine Fish *Siganus Rivulatus* at The Red Sea State, Sudan. Sixth paper focuses on study The Ability of Some Snails (*B. alexandrina*, *M. tuberculate*, and *P. acuta*) for Growth and Reproduction in Artificial Environment. Seventh paper investigated the Presence of Iron and Sulfur Bacteria in Sebha Drinking Water. The last research work it conducted to a Fountain of PV System by Using Solar Cells.

Contents

The Determination of Shelf Life and Some Nutritional Components of Catfish (<i>Clarias lazera</i>) After Hot Smoking			
Egbal O. Ahmed, Hawa T. Adm, and Kalthom E. Mohammed			
Ecological Studies on The Vegetation of Sand Bar of Lake Burollos Protectorate and Effect of Salinity on Some Developing Species	E11-26		
Adel D. El Werfalyi, and Abtisam A. Doumah			
Fluid Inclusion Microthermometry and Dating of The Quartz Cement within The Upper Nubian Sandstone Reservoir, SE Sirte Bain, Libya	E27-36		
Sadeg M. Ghnia, Ali Karbub M. Karboub, and Abdulsalam M. Almishkhi			
Nano Fibers in Dust Collection Systems			
Sadek S. Rejeibi, Fatma Hadid, Milod Unis, and Abdelbaset Zrouga			
Survey of Internal Protozoa Parasites of Marine Fish Siganus Rivulatus at The Red Sea State, Sudan	E47-53		
Samia H. Ahmed, Mujtaba E. Shuaib, Munzir M. Al Ammein, Mohamed A. Yousuf, and Ahmed S. Abd Alla			
The Ability of Some Snails (<i>B. alexandrina, M. tuberculate</i> , and <i>P. acuta</i>) for Growth and Reproduction in Artificial Environment	E 54-59		
Farag S. Elsreite			
Presence of Iron and Sulfur Bacteria in Sebha Drinking Water Ahmed M. Muftah	A1-6		
Fountain of PV System by Using Solar Cells			
Abdul Baset M. Elghweel, and Mohamed S. Ammar
